- 101 Poter's brand of bone jaw in Mastiff, alluded (2)
- 98 Linné says Jackall come nearest to Dog (2)
- 106 Mastiffs always in temperate countries (Cuba Bloodhound, Egyptian etc) (2)
- 119 Difference in gestation in domestic animals of species
- 136 The Libenian race of Wolves, easily known p. 148 various cases of
- 152 Pallas on origin of Black wolves & Dogs (2)
- 155 says Black & white wolves keep separate from others (see Mearns's paper) (Ch. 6.)
- 154 Doubts on distinctness of American & European Wolves
- 168 The Red wild Dog of India destroys young Felidae

It would appear that greater the

difference, as in dogs, between

parents greater the fertility,

as long as difference

is not connected with

generative system.

Infertility is not consequence

of difference in size,

De curis et hominibus

flowers can be raised

What a case of comparison in the
Curiosities, with an account of the
